SUMMARY

Software Developer with hands-on experience in MERN stack and backend engineering, specializing in REST API development and scalable web applications.

SKILLS

Programming Languages: C++, Java, JavaScript, Python, SQL , NoSQL , JavaScript
Frameworks: React, Node.js, Express.js, MongoDB**,** Vite, Bootstrap, WinForms, MSSQL, Postman,Tailwind,Next.js
Methodologies: REST API Development, MVC Architecture, Agile (Scrum) , Docker
Soft Skills: Agile Teamwork, Technical Communication, Analytical Thinking, Task Prioritization , Problem Solving

EXPERIENCE

Software Engineer Intern, Company – KamelPay June 2025 - Nov 2025

- Engineered and delivered 10+ RESTful APIs supporting core application services and features
- Constructed modular controllers reducing code redundancy by 25%
- Owned backend development, improving system performance and response time by 25%
- Performed API testing using Postman, identifying and resolving 30+ bugs/issues
- Collaborated with a team of 5-8 developers in Agile (Scrum) environment
- Participated in bi-weekly sprints to ensure timely delivery of the project.

Projects

StockForge (Real time Stock Market Prediction) | React, Vite, MongoDB, YFinance, HuggingFace StockForge

- Implemented Real Time Stock Market graph Prediction via Web Scraping (Yahoo Finance)
- Real Time Sentimental Analysis on the market news.
- Real Time Prediction of Accuracy,EPOCH,Precision,Confusion Matrix etc

AI Based Sentimental Analysis | Python, React, Cloud Mongo DB, Node.js, Bootstrap MoeezSalman/Priorify

- Devised AI-based system analyzing 500+ feedback entries for sentiment classification
- Automated prioritization, reducing manual analysis effort by 40%
- Developed interactive dashboards with visual insights for decision-making
- Enabled export of reports with multiple visual graphs for stakeholder analysis

AI Based Automation workflow system | Python , typescript , Vite , Tailwind , React Flow , Postgres

- Created a fully automation workflow website where nodes can be attached and on running they perform automation.
- Image generation also being automated using Gemini open API and discord openhook system also being incorporated
- Automated email sending automation is also being incorporated and AI chatbot is also included in the automation.

Ecommerce Website | Vite , typescript/javascript , Tailwind , MongoDB Atlas , bootstrap , Express.js **Site link**

- Created admin side where admin can upload the pictures,videos and detail of the products
- Created user side where user can see the product details (pictures,videos etc) and can add to cart
- Users can place their orders through WhatsApp, where the order details are automatically forwarded to the designated recipient's WhatsApp for processing.

Education

FAST NUCES Lahore – Bachelors in Software Engineering August 2023 - Present
Intermediate — GCU Lahore 2021-2023
School – The Punjab School
